ART UNIT: 2883

DETAILED ACTION

Status of the Application

New claim 15 has been added.

Claims 1-3, 10-12 and 14 are cancelled.

Claims 4-9, 13 and 15 are allowed.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The prior art does not show or fairly suggest the claimed invention of an optical receptacle having the claimed limitations, wherein a rejection under 35 USC 102 or 103 would be improper.

Ishida Chisako (JP. Pub. 10-332988) and **Uenoyama et al.** (JP. Pub. 2003-139994) are the most relevant prior arts of record.

Ishida Chisako discloses an optical receptacle device comprising a fiber stub having ferrule 57 and optical fiber 59 inserted in the ferrule through-hole 57; a holder 53 holds to fix the rear end of the fiber stub ([0002], Fig. 4); an elastic sleeve 15 having 15a inner hole for ferrule 17 inserted in the end face side of the sleeve and the front face side is for holding a plug ferrule 3 ([0008], Fig. 1); a thicker portion (i.e. a gripping/grasping/ hold ring 13) is inserted/covered the outer periphery of the base end part of the fiber stub or the elastic sleeve 15 (abstract, Fig. 1, [0007]); the hold ring 13 or grip ring is fixed to the holes 11d ([0010]); the hold ring 13 or grip ring is made of plastic ([0009]), which "controls the elastic elongation/contraction of the base end part of the elastic sleeve 15, which renders the limitation of "the grip ring is an elastic body"

(abstract, [0009]). However, **Ishida Chisako** fails to disclose a holder to which a rear end of the fiber stub is directly fixed.

Uenoyama et al. teach an optical receptacle having an optical holder 23 which fixes a fiber stub 5 (single-core cylindrical optical ferrule 5) that rear end of the fiber stub 5 is directly fixed to the holder 3 (“Abstract”, and Fig. 4).

Regarding **claims 4 and 9**, **Ishida Chisako** and **Uenoyama et al.** alone or in combination, however, still fail to teach or suggest that the “thicker portion has an outer surface of a periphery of the thicker portion not contacting with the holder”, and “a metal flange provided on the outer surface of the precision sleeve separately from the metal holder”. Therefore in light of the Applicant’s amendment, claims 4 and 9 are allowable as distinguishes over the prior art of record because of the reason stated above. It is this examiner’s position that prior art taken alone, fails to disclose or render obvious in combination with the rest of the limitations of the base claims.

Claims 5-8, 13 and 15 are allowable as dependent claims of claims 4 and 9.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
